Question: Where can I find a rulebook for the RUSH Sportsman Modifieds?

Answer: The complete rulebook is available on our website under Rules at www.rushsportsmanmods.com.

Question: Do I have to be a member of RUSH to compete?

Answer: No. Any *eligible* racer (see eligibility rules in the 2018 Technical Rules) is permitted to compete in a RUSH-sanctioned event providing their car meets all of the specifications found within the RUSH rulebook. You must only be a member if you wish to be eligible for point fund(s) and/or any other membership benefits. The \$125 membership also includes a \$100,000 excess medical benefit policy, which is in excess to driver's personal health insurance and track's participant accident policy.

ENGINES/TIRES/WHEELS/SHOCKS/FUEL:

Question: Where do I purchase a GM 602 engine and what is the cost?

Answer: Although the GM 602 engine is available throughout the country at GM performance outlets, we sincerely ask that you solicit and support Pace Performance (a division of Sweeney Chevrolet Buick GMC) as they have immediately stepped forward to sponsor this division throughout our region. See engine link on our website to order base engine part #19370602 directly from Pace for \$3,952.20. Contact Pace Performance at 888-748-4655 or www.paceperformance.com

Question: Does my "602 crate" need a RUSH seal before competing?

Answer: No. A RUSH seal will only be installed after an *approved* repair has been made. The original *UNALTERED* GM sealing bolts are legal, unless a repair has been made.

Question: What does a competitor have to do to maintain a legal engine in the RUSH Sportsman Modified division?

Answer: There are several answers to that question. If you have a motor that is not new then the motor needs to have to appropriate RUSH or DIRTcar seals. Only a RUSH-authorized repair outlet can conduct the sealing process. The authorized repair/rebuild facilities are listed on our website under the Engines/Tires link.

Question: Do I need to take my motor somewhere to have it sealed?

Answer: Motor needing repaired may only be taken to a RUSH-authorized repair outlet to be sealed.

Question: I think I'm having a problem with my GM crate motor. What do I do first?

Answer: Read Engine Section 1.1F in the rulebook. Contact a RUSH-authorized repair/rebuilt outlet of your choice to discuss your motor's problem.

BEFORE REMOVING ANY OF THE GM SEALING BOLTS, contact the RUSH Office.

Question: If I have a rebuild or repair made, what do I have to show to speedway officials that my motor has been RUSH-approved?

Answer: The RUSH or DIRTcar seal will suffice, as detailed records of the engine repairs are maintained by both the RUSH Office and the RUSH authorized repair/rebuild outlet. Details include repairs that were made, seal serial numbers & locations, engine serial numbers, and date of manufacturer.

Question: If my motor has been officially sealed with either a RUSH or DIRTcar seal, does this mean I'm exempt from any technical inspections at the track I race at?

Answer: No. You will be subjected to the same technical procedures as all of the other competitors.

IMPORTANT TO NOTE: ANY VIOLATIONS FOUND CONCERNING ANY TAMPERING WITH THE STOCK GM SEALING BOLTS, OR APPROVED RUSH OR DIRTCAR SEALS, IS SUBJECT TO IMMEDIATE PENALTY, FINE AND/OR UP TO ONE (CALENDAR) YEAR SUSPENSION FROM ANY RUSH-SANCTIONED EVENT OR TRACK. MULTIPLE INFRACTIONS MAY RESULT IN AN INDEFINATE SUSPENSION

AS A DRIVER, YOU ARE RESPONSIBLE FOR YOUR EQUIPMENT. THE DRIVER & OWNER WILL BE SUSPENDED. BE SURE TO KNOW YOUR EQUIPMENT BEFORE YOU RACE IT.

Question: Where do I purchase the spec Hoosier Tires required and what is the cost?

Answer: The required Hoosier Tires will be available throughout the region at all Hoosier Tire Distributors. Tires will be sold for approximately \$160. The list of distributors is posted on our website under the Engines/Tires link. Tires will be the same price for all racers with no special tire "deals" available.

Question: Why are you requiring steel wheels?

Answer: Steel wheels are considerably less than aluminum wheels (approximately \$100 per wheel less).

Question: Where do I purchase the Bilstein "sealed" shock absorber that is required and what is the cost?

Answer: The shocks are available at Precise Racing Products (Sarver, PA) in addition to other suppliers such as Wedge Motorsports (Warren, OH). Each shock will be sold for \$140 with no "deals".

Question: Can I run any fuel in my car?

Answer: NO. Only RUSH 91 pump gas is legal for competition. Additives and/or blending of any type including; methanol, alcohol, nitrous oxide, propylene oxide, nitromethane or other performance enhancing chemical additives will not be permitted. Fuel may be tested from time-to-time and/or submitted for verification by designated RUSH Racing Series and/or Track Officials to Sunoco Race Fuels. **It is the racer's responsibility to know what he or she is putting in the fuel cell.**
